Stephanie -

These NGO comments are mainly on the Effects Analysis, but there is some clear carryover to the EIS. Worth a quick look through.

Karen - This is NRDC's (Barry's) testimony from yesterday's hearing, which was referenced in your call today.

Friends –

FYI, attached is NRDC's testimony from Senator Pavley's Bay-Delta hearing yesterday, as well as three related attachments. The testimony includes a brief summary of the current status of BDCP and our recommendations for moving forward. Let me know if you have any questions.

Barry
